

WELCOME TO PSHE AT ETONE COLLEGE

The aim of PSHE at Etone College is to equip pupils with the skills and knowledge they need to help them deal with the real life issues and situations they may face on a day to day basis as they grow into mature and well-rounded individuals.

PSHE at Etone College is delivered by the form tutor team for one hour a week. The programme covered in Years 7 to 11 is extensive and covers a wide range of diverse subjects. Central to the programme are the following topics:

Safety Awareness (including Road Safety)

Careers

Drugs

Sex and relationship education

Emotional health & Personal Wellbeing

Finance

Whenever possible we use visiting speakers, theatre groups and trips to reinforce the messages we deliver in the programme; these include presentations on Fire Safety, Road Safety, Adolescent car safety and internet bullying and online grooming. We also have an extensive range of trips and speakers to support and shape pupils futures after post-16 education. We currently have links with Barclays bank, NHS at the George Eliott Hospital and the RAF at Brize Norton.

With our delivery of PSHE we take the view of developing our pupils with age appropriate information and an overview of each year building on the basis form the previous years.

With our careers guidance, we give all pupils at least one careers interview in and one University visit in years 10 and 11. All of the advice given is personalised to each individual child but aspirational so that they strive to achieve their best throughout their time with us at Etone College.

Please find overleaf an overview of the PSHE programme for each year group:
