

Etone College join the IGGY Community!

All Most Able students were inducted into the Iggy community earlier in the month. Members of the University of Warwick attended the morning where they took all Most Able students through the network.

IGGY is a no fee global educational social network designed to help gifted and talented young people aged 13-18 realise their full potential. They are part of the University of Warwick so our students have access to great educational resources and get to work with top academics and other gifted and talented young people around the world.

Members can create their own profiles, make friends and collaborate internationally. They're helping create a great site for gifted and talented young people to exchange ideas, debate, learn and explore in a safe environment.

We look forward to our partnership with IGGY!
