

20th January 2022

Dear Parent/Carer

Year 10 pupils are following a linear course in both Statistics and Mathematics with Edexcel. They will be sitting their Statistics GCSE exams in May/June 2022 and Mathematics exam in the summer of 2023.

To support your child's preparation for both the 2022 and 2023 exams, the Mathematics Department is offering revision materials and calculators at a reduced price for pupils. These are a valuable resource to support learning and revision as they cover all the content needed for both courses.

CGP publish revision books specific to the syllabus we follow for Statistics. The **Revision Guide** contains worked examples and explains how to tackle questions and the **Exam Practice** contains questions and answers for your child to try. These books usually cost over £5.00 from the shops; however, these books are available from us at a discounted price of £3.25 per book. The calculator is the one we recommend and is the most suitable for both exams. This is also available at a reduced price of £10.50.

Your child should be aware of which level they are studying but if they are unsure, they should check with their Mathematics teacher.

All pupils entitled to Pupil Premium will receive a free copy of these guides to support them with their studies, so there is no need for these pupils to take any further action in regards to this letter.

If you would like to purchase a copy of these resources for your child and/or a calculator, please complete the reply slip below and make the relevant payment via your child's Wisepay account. The reply slip and Wisepay receipt should be returned to reception by **Friday 4th February 2022**.

Yours faithfully

Mr I Smith
Headteacher
