Dear Parents/Carers

In line with Government guidance, schools have been instructed to have a planned recovery curriculum to close the gaps that may have been created and/or increased during school closure.

We have already, this term, held after school BTEC recovery lessons for all pupils who are below their baseline target grades.

From **Monday 2nd November** we will be expanding these sessions, before and after school, across a range of additional subjects as follows:

Day	Session	Time	Subject
Monday	After school	3.00pm-4.00pm	Science French German Spanish
Tuesday	Breakfast	8.30am-9.10am	Geography
Tuesday	After school	3.00pm-4.00pm	English Photography
Thursday	After school	3.00pm-4.00pm	Triple Science Mathematics
Friday	Breakfast	8.30am-9.10am	History
Friday	After school	3.00pm-4.00pm	Geography Mathematics

At this stage, these sessions will only be for those pupils who require the most targeted support. Those pupils invited to attend will be issued with a new timetable to inform them of which sessions they need to attend. Reminders will also be sent via text message.

The list of pupils will be monitored and updated regularly.

These sessions are compulsory and it is essential that your child attends.

Formal mock examinations will be taking place for all Year 11 pupils week beginning 7th and 14th December.

Virtual progress evening for parents/carers will also be held in November and further information will be shared regarding this in due course.

Thank you for your continued support

Yours faithfully

Mr I Smith
Headteacher
