

YEAR 7

This term pupils will be learning all about Computer Hardware and Software. They will learn the key components to build a computer system including the software to run it.

YEAR 8

This term pupils will be having their first experience into the world of Business. We have an Enterprise topic to give pupils a basic understanding of businesses in the local area. They will look at marketing, advertising, finance and HR. It will give pupils a real flavour of what it is like to run a successful business enterprise. They will learn key skills such as money management, interview techniques and employment.

YEAR 9

This term pupils will learn about Animation. The core concept of what animation is and the various types of animation including the following:

- A brief history of how animation has developed throughout time
- Principles of animating work
- Different types of methods, techniques and software and the selling points of each
- How to develop an animated piece of work
- Importance of frame rates and principles to the quality of the animation
- The process behind conceiving, producing and editing an animation
- Responding to a client brief
- Difference between 3D, 2D and the movement towards the former in recent times
